

Exercise 4: Employee Management System

CODE:

```
class Employee {
    int employeeId;
    String name;
    String position;
    double salary;

    Employee(int employeeId, String name, String position, double salary) {
        this.employeeId = employeeId;
        this.name = name;
        this.position = position;
        this.salary = salary;
    }

    void display() {
        System.out.println(employeeId + "\t" + name + "\t\t" + position + "\t\t" + salary);
    }
}

public class Main {
    static Employee[] employees = new Employee[10];
    static int count = 0;

    // Add Employee
    static void addEmployee(Employee emp) {
        if (count < employees.length) {
            employees[count] = emp;
            count++;
        }
    }

    // Search Employee
    static void searchEmployee(int id) {
```

```

for (int i = 0; i < count; i++) {
    if (employees[i].employeeId == id) {
        System.out.println("\nEmployee Found");
        System.out.println("ID\tName\t\tPosition\tSalary");
        employees[i].display();
        return;
    }
}

System.out.println("\nEmployee not found.");
}

// Traverse Employees
static void traverseEmployees() {
    System.out.println("ID\tName\t\tPosition\tSalary");

    for (int i = 0; i < count; i++) {
        employees[i].display();
    }
}

// Delete Employee
static void deleteEmployee(int id) {
    for (int i = 0; i < count; i++) {
        if (employees[i].employeeId == id) {
            for (int j = i; j < count - 1; j++) {
                employees[j] = employees[j + 1];
            }
            employees[count - 1] = null;
            count--;
            return;
        }
    }
}

```

```

    }
}

public static void main(String[] args) {
    addEmployee(new Employee(101, "Rahul", "Manager", 60000));
    addEmployee(new Employee(102, "Sneha", "Developer", 50000));
    addEmployee(new Employee(103, "Aarav", "Tester", 40000));

    System.out.println("Employee Records");

    traverseEmployees();

    searchEmployee(102);

    deleteEmployee(103);

    System.out.println("\nEmployee Records After Deletion");

    traverseEmployees();
}
}

```

OUTPUT:

```

Employee Records
ID  Name      Position  Salary
101 Rahul      Manager   60000.0
102 Sneha     Developer  50000.0
103 Aarav     Tester    40000.0

Employee Found
ID  Name      Position  Salary
102 Sneha     Developer  50000.0

Employee Records After Deletion
ID  Name      Position  Salary
101 Rahul      Manager   60000.0
102 Sneha     Developer  50000.0

```
